

# CAPTURE™ a better viewing experience.

■ **AWARD-WINNING.** The ultimate large display solution, CAPTURE™ provides maximum visibility at a minimum cost.

■ **BRILLIANT.** A high-resolution micro-structured screen surface, CAPTURE delivers spectacular imagery with unparalleled brightness and contrast even in intense lighting conditions.

■ **VISIBLE.** Available in 100-inch, 200-inch and custom sizes, CAPTURE is ideal for churches, malls, airports, in-store networks, sports and entertainment venues, universities and convention centers.

■ **ULTRALIGHT.** Weighing less than 100 pounds, CAPTURE is the easily-installed display choice.

■ **AFFORDABLE.** At a fraction of the cost of other large display technologies, CAPTURE creates stunning visual impact.

## The most vivid picture under any lighting conditions.

In conditions like these, images get washed away on traditional projection, LCD and plasma screens. But the Capture display presents them in vivid detail—thanks to its patented optical brilliance technology. And when you consider it's available for a fraction of the cost, the choice gets even clearer. Call 417.237.0905 or visit [www.capturedisplays.com](http://www.capturedisplays.com) to learn more.

**CAPTURE™**
